University of California, Irvine
FACULTY POSITION IN DRUG DISCOVERY

The Department of Pharmaceutical Sciences in the University of California, Irvine Samueli College of Health Sciences, invites applications for a tenured faculty position at the Associate to Full Professor level in drug discovery. We seek a Ph.D.-level scientist who will establish a vigorous research program in drug discovery, broadly defined. The candidate should also be committed to teach medicinal chemistry and related topics at the undergraduate and graduate levels. Candidates must have a Ph.D. in Chemistry, Biochemistry, Genetics, Molecular Biology, or a related field. Preference will be given to applicants with post-doctoral experience and a strong record of accomplishment in developing cutting-edge technologies.

Apply via UC Irvine’s online application system, RECRUIT:
https://recruit.ap.uci.edu/apply/JPF04921

Applicants should upload a cover letter, a curriculum vitae (including a publication list), a concise statement of proposed research, and a teaching statement. A separate statement that addresses past and/or potential contributions to diversity, equity and inclusion must also be included in the application materials. To insure full consideration, applications and supporting materials should be received by November 15, 2018.

The University of California, Irvine is an Equal Opportunity/Affirmative Action Employer advancing inclusive excellence. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age, protected veteran status, or other protected categories covered by the UC nondiscrimination policy.
